DERMAPET ECTOCARE

MEDICATED SHAMPOO. ECTOPARASITE TREATMENT. FLEA, LICE & TICK CONTROL. INSECT REPELLENT.

Flea, lice & tick control shampoo. Insect repellent. Designed to immediately kill adult and larva stages of parasites on contact. What distinguishes Dermapet Ectocare from flea control shampoos in the market is that it kills ectoparasites as well as it keeps up with animal dermocosmetic standards. **Composition:** Tetramethrin, Fenitrothion, Piperonyl butoxide. **Fresh Citron Aroma.** The citronella-based fragrance replaces the strong pesticide smell present in other products in the market. **Instructions for use:** Visit dermapet.com.ar. **Presentation:** Professional use, 5 L Bottle / Household use, 250 mL tube, no dilution required. **Dog external use.**

DERMAPET SEPTICARE

MEDICATED SHAMPOO FOR DERMATITIS. ANTI-BACTERIAL, ANTI-FUNGAL & ANTI-ITCH.

Dermatitis is one of the most common medical conditions of the skin. It is a general term for skin inflammation caused by different factors: bacterial, fungal, allergic, irritant and autoimmune skin infections which can be located in a specific area or spread all over the body, deep or superficial, with chronic or acute characteristics. **Dermapet Septicare** provides general hygiene besides anti-bacterial, anti-fungal and anti-itch action. Indicated in bacteria and fungus infections (*Microsporum*, *Trichophyton*, *Malassezia*) disinfection of superficial and deep wounds. **Composition:** Chlorhexidine, Coconut betaine. **Bio Cure Aroma.** A neutralizing fragrance that promotes skin health and hygiene, differentiating itself from the strong odors present in common anti-bacterial products. **Instructions for use:** Visit dermapet.com.ar. **Presentation:** Professional use, 2 L doypacks / Household use, 250 mL tube, no dilution required. **Dog, cat and pig external use.**
